Sustainable Chelsea® Q from the Green Living® Collection - Government

Sustainable Living Fabrics (SLF) is an environmentally innovative textile company supplying the Australian and international commercial interiors market since 1968. The Green Living Collection offers over 400 environmentally certified fabrics for seating and panels.

Winner 2007 Victorian Premier's Sustainability Award for Small Business Excellence.

Winner 2007 United Nations Association of Australia World Environment Day Incolne Scott Triple Bottom Line Award.

Eco Innovation Category Finalist 2006 Banksia Foundation Awards.

Funded planting of 30,000 trees for the Murray Darling Rescue: Halt the Salt.

Member Greenhouse Challenge Plus. Committed to reducing and reporting our CO₂ emissions to the AGO. Powered by 100% Accredited Green Power.

This fabric is carbon neutral from cradle to grave.

The company and this fabric has been independently certified Greenhouse Friendly under the Australian Government Greenhouse Friendly Initiative

This fabric carries the GECA Ecolabel for Textile Products certifying it as eco-preferred on a product life cycle basis.

This fabric uses eco wool® yarn from certified low pesticide leanwool® sourced through the innovative LEAP scheme for environmentally preferable wool. Greenhouse gas emissions attributed to leanwool® are significantly less than those attributed to eco wool and wool.

TVOCS

This fabric is certified low VOC. Test report at www.greenliving.com.au.

This fabric is warranted for up to twelve years and is recyclable through the Sustainable Living Fabrics Recycling Program. Conditions apply www.greenliving.com.au

APPLICATION

Suitable for seating and panels. This fabric does not require backcoating.

GREEN STAR

This fabric can be used in a submission for Green Star points. Details of our Accredited Green Star Professional can be found at www.greenliving.com.au
